

CRAGHOPPERS

EXPERT

DISCOVER YOUR WORLD

SINCE 1965

AUTUMN/WINTER 2022

CRAGHOPPERS

Back in 1965 when Craghoppers hit upon the idea of turning a passion for travel into a bona fide business, the team felt like they were embarking on an exciting and at times perilous trip into the unknown. Looking back, their perseverance paid off and Craghoppers is now recognised as a global outdoor and adventure travel specialist.

The world may have moved on over the last 56 years but our mission today is the same as it was all those decades ago - to create comfortable and practical clothing ranges to help our customers stay on the trail as long as possible. And every year, we get that little bit better. By introducing new designs, using the latest technologies, keeping sustainability at the heart of everything we do and bringing that special spirit of innovation, our products are more comfortable, lighter, more waterproof, insulating and sun-protective than ever before.

CRAGHOPPERS

EXPERT

Taking these technologies and our sustainability ethos, we have applied them to our new Craghoppers Expert range to ensure that we offer the very best performance for all day wear at the workplace - wherever that may be.

A collection of clothing and accessories for professionals working in the outdoors.

SINCE 1965

WHO WE ARE

CRAGHOPPERS ARE WORKING TO
BECOME A GLOBAL LEADER FOR
ACCESSIBLE, INNOVATIVE AND
SUSTAINABLE CLOTHING FOR
THE OUTDOORS.

OUR EMBLEM

THE MOUFLON

The spirit of Craghoppers is embodied by the mouflon ram, one of the hardiest animals in the world, thriving in inhospitable mountain environments.

Born nomads, the mouflon rarely stays in one place long, constantly wandering and exploring new territories. This is brought to life with our mouflon logo.

THE HISTORY OF OUR BRAND

1965

Craghoppers
first Everest expedition

2002

Nosquito insect
clothing introduced

— **ECOSHIELD** A naturally water-resistant coating inspired by nature.
— Relaunch of **Expert** range

MINDFULLY MADE

2020 and 2021 were milestone years in our Sustainability Journey. In 2020, we won Drapers Sustainable Fashion Brand of the Year and we were shortlisted for the Drapers Positive Change Award in 2021. These were proud moments for the teams and the brand. They acknowledged how committed we are to making sustainable products in a sustainable way. But we don't want to stop there. We want to make positive progress every year and bring our factories and suppliers along with us.

In 2022, we joined the Sustainable Apparel Coalition and will be working collaboratively with other likeminded companies, using the Higg Index to enable us to benchmark our current performance against the best sustainability initiatives around, helping us set targets for our continuous improvement.

ETHICALLY MADE

68,000 WORKERS IN FACTORIES
ARE COVERED BY THE ETI BASE CODE

COMPLIANCE WITH THE CONTROL OF SUBSTANCES HAZARDOUS TO HEALTH REGULATIONS 2002 (COSHH)

ENGLISH HERITAGE

WE HAVE BEEN WORKING WITH ENGLISH HERITAGE FOR OVER A YEAR NOW AS PART OF A 3 YEAR PARTNERSHIP.

We have provided the charity with £1 million worth of outerwear comprising waterproof jackets, softshell and fleece to keep its 3,700 site-based staff and volunteers warm and dry across 400 plus iconic historical sites across England.

DANIEL HALE
HEAD GARDENER AT BRODSWORTH HALL AND GARDENS, SOUTH YORKSHIRE

"I oversee the maintenance and restoration of the beautiful Victorian garden, bringing history to life for our visitors."

Daniel Hale

EDWARD WOOLARD
AREA CATERING MANAGER ACROSS THE NORTH

"I work across the North English Heritage sites, trying lots of delicious local foods and planning new and exciting things for our menus."

Edward Woolard

PARTNERSHIPS

RACHEL MORRISON

AUDIENCE DEVELOPMENT MANAGER FOR MARBLE HILL, TWICKENHAM

"I am currently working on a £6 million revival project that will open the house more often for free; revive the landscape and improve the facilities across the park - from the play area to the sports pitches."

Rachel Morrison

KELLY FOWLER

SENIOR GARDENER AT AUDLEY END HOUSE AND GARDENS, ESSEX

"I work in the organic walled kitchen garden, tending to the care of historic fruit trees, delicious vegetables and seasonal floral displays - where every day is truly different."

Kelly Fowler

**WE HAVE BEEN WORKING
WITH THE DIAN FOSSEY
GORILLA FUND INTERNATIONAL
FOR OVER 8 YEARS.**

We provide the trackers and rangers with clothing that will protect them from the elements so that they can research and monitor the gorillas in the wilds of the Congo and Rwanda. They require kit which is hardwearing and will keep them warm and dry in the mountain forests.

The conservation work carried out at the Dian Fossey Gorilla Fund focuses on four main areas: the daily protection of the gorillas, scientific research on gorillas and the eco systems, education and helping the local communities.

PARTNERSHIPS

OUR PARTNERS

It's the company you keep that makes you strong. We work with some well-respected, recognisable organisations that share our values and help us realise that this is more than just a business, it's a passion.

Saving the Survivors

Galapagos Conservation Trust

WeTwo

AMBASSADORS

We work with some fantastic Ambassadors who through their amazing challenges or their everyday work, test our clothing to its limits and give us valuable feedback. We have photographers, filmmakers, conservationists and adventurers. They travel across many environments and a range of climates, inspiring us all to join their adventures.

KEVIN RICHARDSON WILDLIFE CONSERVATIONIST AND FILMMAKER, SA

Kevin the 'Lion Whisperer's' mission is to highlight the plight of lions in captivity and in the wild.

Kevin Richardson

CHAZ POWELL EXPEDITION LEADER & SURVIVAL GUIDE

After exploring and hiking the globe for the past 17 years, Chaz now lives his life as an Expedition Leader and Survival Guide in the North of Scotland, living sustainably.

Chaz Powell

SABAH AHMED OUTDOOR ADVENTURER & FOUNDER OF SUMMIT SPECIAL

Sabah works to empower and enable women to experience the outdoors. A trained physiotherapist and founder of Summit Special a group encouraging minority groups in outdoor adventures.

Sabah Ahmed

CRAIG GRIMES MANAGING DIRECTOR OF EXPERIENCE COMMUNITY CIC, UK

Craig has built a community of disabled people who, with families and friends, can experience the great outdoors together.

Craig Grimes

JACK FLECKNEY ADVENTURER

Jack has been a rugby player and Royal Marine Commando and he loves a challenge. In 2022, he will be travelling 2000km across Africa, completing challenges and working on community projects along the way.

Jack Fleckney

TECHNOLOGIES

At Craghoppers we pride ourselves on producing innovative and high performance fabrics and technologies. We are proud to say that the full Craghoppers Expert collection has been made with fabrics incorporating recycled materials.

AQUADRY

Guaranteed waterproof and breathable protection

Guaranteed waterproof and breathable fabric. A combination of our waterproof and breathable coating and our technical outer fabrics delivers guaranteed levels of protection and comfort. The outer face is treated with EcoShield plant based DWR (Durable Water repellent) finish to help keep the outer fabric drier for longer.

The final product provides guaranteed breathability and all-round waterproof performance.

ECOSHIELD

Naturally water resistant

A naturally water-resistant coating, inspired by nature. 63% renewably sourced from a variety of plant-based sources. EcoShield allows fabrics to be quick drying and also repels water based stains.

THERMO PRO

Tough, agile and protective

A new insulating technology that provides a viable synthetic alternative to natural down. The innovative ThermoPro fill uses specially constructed fibres to simulate down construction, delivering comparable heat retention properties. Light, high loft and quick-drying for effortless efficiency in cold and wet conditions.

SOLAR SHIELD

UPF40+ sun protective clothing

SolarShield is Craghoppers' range of sun-protective fabric tested for UV-protection UPF40+.

Sun-protection is given by a combination of 3 things, the density of the fabric construction, the type of yarns used and its colour.

NOSI DEFENCE

An effective barrier to biting insects

NosiDefence provides a robust barrier of specially constructed fibres which are too tough for insects like mosquitoes to penetrate. NosiDefence fabric will help to defend your skin from insect bites allowing you to enjoy your work carefree.

World leading waterproof and breathable fabrics for all weather conditions.

Craghoppers together with Gore, create world leading waterproof and breathable jackets for all weather conditions. Adventurers world-wide have been putting GORE-TEX Products through their paces for years and it still comes out on top as the finest waterproof and breathable fabric there is. Now with a PFCec free durable water repellent finish.

EXPERT

PROTECTION AGAINST RAIN

Waterproof and breathable.
Craghoppers Expert garments
conform to class 3:1.

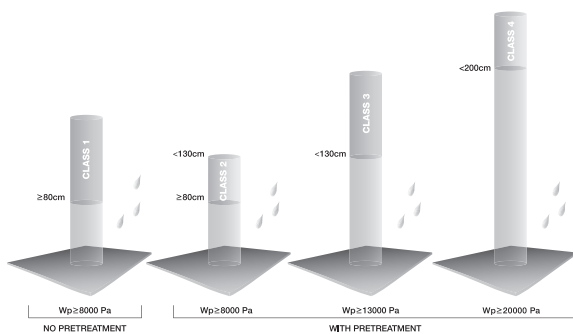

EN 343

The European Standard 'EN 343:2019 Protection against rain' distinguishes between four classes of a garments performance, based on separate water-proofness and breathability capabilities.

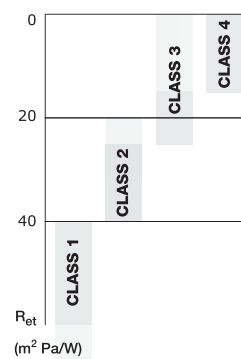

WATERPROOFNESS

Waterproofness of the material is measured by testing the level of resistance to water penetration (Wp). Hydrostatic pressure is measured in a column of water (in Pascals) until water penetrates the fabric.

BREATHABILITY

The water vapour permeability or breathability of a garment is tested by measuring its resistance to water vapour. The lower the Ret value, the higher the breathability of the material.

FEATURES

Craghoppers is renowned for its features and benefits, we pay great care and attention to ensure each garment has the added features and functionality that it might need.

These features include:

RFID BLOCKING POCKETS - Our special lining fabric helps prevent accidental use or deliberate mis-use of credit cards and passports by blocking radio signals from activating the chip.

ODOUR CONTROL PATCHES - Our OdourControl technology uses innovative fabric patches in key areas to capture and absorb odour molecules to help you stay fresher for longer.

HOT POCKETS - A thermal fabric layer in the lining that reflects body heat for when the temperature drops.

HEEL TAPE - For added durability in a high wear area.

CRAGHOPPERS

— — — — —
EXPERT

BRANDING

The Craghoppers Expert range has been specially developed for corporate and workwear use. Giving companies and customers the opportunity to add their branding to the garments. The only external branding is a tonal mouflon and Craghoppers logo which features in discreet places on the garments.

For waterproof/lined garments we have reviewed the access points for branding, they have zipped access which has been moved to below the inner drip strip to allow easier access to more of the garment.

GUARANTEED FOR LIFE

Making products that last is a key ingredient to sustainability. We are so proud of the quality of our clothing that we offer a Guarantee for Life.

All you need to do is register your clothing with us, keep your proof of purchase and if we are unable to repair it, it will be replaced for the same or like for like item, organised by our dedicated Customer Service team.

Due to the nature of usage, our luggage, footwear and walking pole collections are covered by the following warranties:

Luggage: 5 Years from date of purchase

Footwear and walking poles: 2 years from date of purchase

All would require proof of purchase and an assessment from our dedicated team.

PRODUCT REPAIR

We have joined forces with the Timpson Group - the UK's largest branch network of Repairs and Alterations, Dry Cleaning and Laundry to offer a free repair service for our customers.

TECHNOLOGIES

Every season, Craghoppers creates and refines a host of outstanding technologies designed to enhance movement, manage moisture, promote freshness, resist stains, defend against insects, reduce maintenance, provide insulation and protect the wearer from the prevailing weather conditions all year round!

AQUADRY

Guaranteed waterproof and breathable fabric.

Waterproof, breathable, taped seams and water tight constructions. Designed for moderate to heavy downpours.

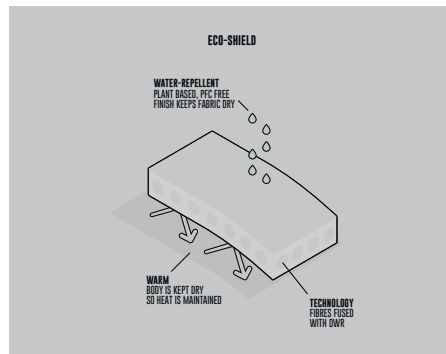

What is AquaDry?

A combination of our waterproof and breathable coating and our technical outer fabrics delivers guaranteed levels of protection and comfort.

The outer face is treated with our EcoShield DWR (Durable Water-repellent) finish to help keep the outer fabric drier for longer. The final product provides guaranteed breathability and all-round waterproof performance.

ECOSHIELD

Naturally water resistant.

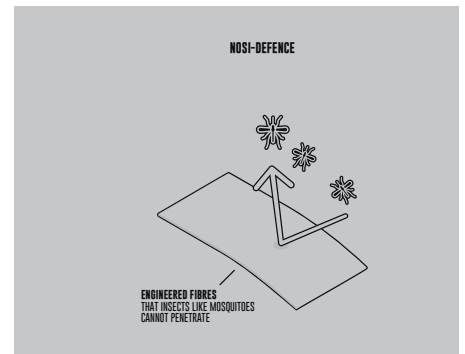

What is EcoShield Technology?

A naturally water-resistant coating, inspired by nature. 63% renewably sourced from a variety of plant-based sources. EcoShield allows fabrics to be quick drying and also repels water based stains.

NOSI DEFENCE

An effective barrier to biting insects.

Keep bugs at arm's length.

What is NosiDefence?

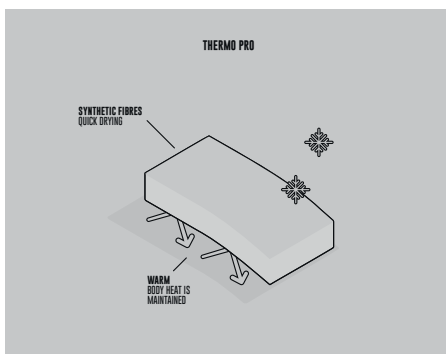

NosiDefence provides a robust barrier of specially constructed fibres which are too tough for insects like mosquitoes to penetrate.

NosiDefence fabric will help to defend your skin from insect bites allowing you to enjoy your adventures carefree.

THERMO PRO

Innovative high loft insulation.

Stay warm on the trail with high loft down-effect insulation.

What is ThermoPro?

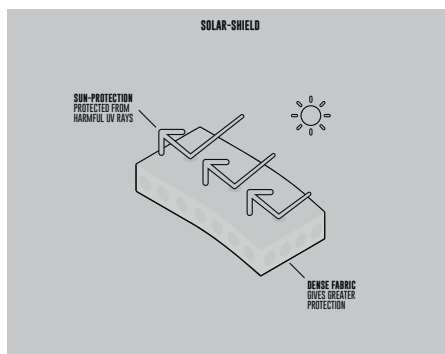

A new insulating technology that provides a viable synthetic alternative to natural down. The innovative ThermoPro fill uses specially constructed fibres to simulate down construction, delivering comparable heat retention properties.

Light, high loft and quick-drying for effortless efficiency in cold and wet conditions.

SOLAR SHIELD

UPF40+ Sun-protective clothing.

Get out there and enjoy the sun without taking risks. Our SolarShield fabric technology has been tried and tested to give you UPF40+ protection from harmful UV rays.

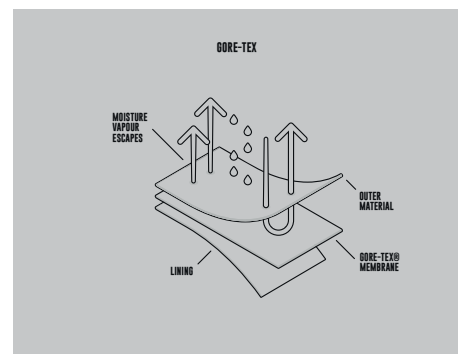

SolarShield is Craghoppers' range of sun-protective fabric tested for UV-protection UPF40+.

Sun-protection is given by a combination of 3 things, the density of the fabric construction, the type of yarns used and its colour.

SolarShield Rating: Excellent
UPF Index: 40+
Blocked UVR: 97.5%+
UV Radiation: 2.5% or less

World leading waterproof and breathable fabrics for all weather conditions.

Craghoppers together with Gore, create world leading waterproof and breathable jackets for all weather conditions. Adventurers world-wide have been putting GORE-TEX Products through their paces for years and it still comes out on top as the finest waterproof and breathable fabric there is. Now with a PFC free durable water repellent finish.

SIZING & FIT GUIDE

All our garments are designed specifically for purpose.

The measurement tables and diagrams show how each size and fit differs to help you see which suits you best.

WHAT TO MEASURE

HEAD	The circumference around the middle of your forehead
HAND	The circumference around the palm
BUST/CHEST	Under your arms, around the fullest part of your chest
WAIST	Around your natural waist line at the top of the hips
HIP	Around the fullest part of you body at the top of the leg
LENGTH	From the inside leg to the bottom of your ankle

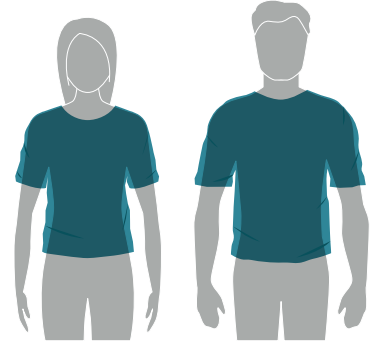

ACTIVE FIT

Fitted cut with active styling and stretch fabric or detail.

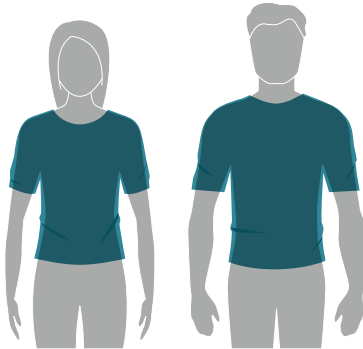

RELAXED FIT

Generous fit for comfort and freedom of movement.

TAILORED FIT

A regular cut slimmer through the chest, waist, hem & sleeve.

WARMTH RATING

There is a big misconception that heavier means warmer, this is not the case with modern fabrics. Multiple layers trap more air than one single bulky layer and give more flexibility to regulate body heat by adding or removing layers as you heat up or cool down.

Also depending on the garment it may also be wind-resistant or even windproof. This can make a huge difference even if the garment does not have high insulation as being able to cut the windchill can literally be the difference between life and death.

Additionally it is worth remembering that everybody will experience cold differently and what suits one person may not work for another.

Our warmth rating system is designed to explain the insulating properties of our clothing, when worn as part of a technical layering system.

- 3 OPTIMUM**
Optimum insulation for extreme conditions at a temperature range of approximately 0°C/-20°C
- 2 ENHANCED**
Enhanced performance for colder climates at a temperature range of approximately 10°C/-5°C
- 1 REGULAR**
Insulating warmth for every day comfort at a temperature range of approximately 15°C/5°C

WARMTH RATING

There is a big misconception that heavier means warmer, this is not the case with modern fabrics.

Multiple layers trap more air than one single bulky layer and give more flexibility to regulate body heat by adding or removing layers as you heat up or cool down.

It is worth remembering that everybody will experience cold differently and dependent on activity and exposure time, what suits one person may not work for another.
