

EMJ Management Ltd  
Environmental Policy  
Updated 11<sup>th</sup> April 2024

The Environmental Policy of EMJ Management (“the Company”) is to ensure so far as it is reasonably practicable that its operations will be carried out with a commitment to protecting and enhancing the environment.

The company moved into a new purpose-built unit in January 2020. This new building has many long-term energies saving and environmental features.

As an office we know that we generate wastepaper products. However, as we strive for excellence in every aspect of our business, we are committed to minimising the environmental impacts of the business operation.

1. **Our stated aims are to:**

- 1.1 Aim to continuously improve our environmental performance particularly with regards to our recycling and re-use of paper.
- 1.2 Where possible we will use recycled or ecologically friendly paper.
- 1.3 We will use ‘waste’ paper for notepads unless confidentiality may be compromised.
- 1.4 Reduce our consumption of resources and improve the efficiency of those resources by printing double sided where practicable
- 1.5 Manage waste generated from my business operations according to the principles of reduction, re-use and recycling
- 1.6 Recycle all paper products, ink or toner cartridges.
- 1.7 Comply as a minimum with all relevant environmental legislation as well as other environmental requirements.
- 1.8 Install a solar panel system, early 2021 which will provide around 85% of our electricity. In conjunction with this we have installed a zoned using the latest LED technology. The lights use 75% less energy than standard tubes.
- 1.9 Reduce our water consumption by 85% by way of our rainwater harvesting system.

This Environmental Policy Statement will be regularly reviewed and updated, as necessary. The management team endorses these policy statements and is fully committed to their implementation.
